

Full Automatic

Automatic Intelligent machine with PLC touch screen, save labor and easy to operate.

High Efficiency

High Speed capsule separating and filling device. Increase the productivity markedly.

GMP Standard

The peripheral cover is full-sealed, easy to clean and comply with GMP standard.

APPLICATION

Various types can be chosen according to your requirement. And related products of Production Line are optional at the same time.

SPECIFICATION

Support for Customizing and ODM

Model	NJP-3800
Applicable Capsule	000#-5#
Production Capacity	228000pcs/h
Load Precision	W±3%
Compressed Air	7m³/h
Voltage	220V 50Hz
Motor Power	10.5KW
Machine Dimensions	1500×1200×2200mm
Net Weight	2200kg
